# Why Sankalp Se Siddhi

Five year period from 1942 to 1947 was the time when million of Indians worked together towards a single goal i.e. complete freedom.

To commemorate 75 years of the Quit India Movement, the Shri Narendra Modi government led the nation to a pledge to create a New India that is strong, prosperous and all-encompassing; an India that will make our freedom fighters proud.

“Sankalp Se Siddhi” is an appeal to the 1.25 billion population to work with same spirit towards “New India”. 15<sup>th</sup> August, 2017 is the day of “Sankalp” or the “Day of Resolve” and the “Attainment” or “Siddhi” of the goal will be celebrated on 15<sup>th</sup> August, 2022.

*The Pledge* is to build a New India by 2022; an India that is clean, has no poverty, is devoid of corruption, is free of terrorism, has no distinction on the basis of caste and religion.

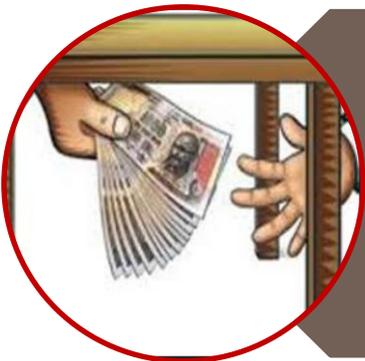

## Quit Dirt:

Lets take pledge to clean our surroundings and work towards open defecation free rural India.

## Quit Poverty:

A pledge to make India Poverty Free should start at rural level. Lets pledge for rural India's prosperity.

## Quit Corruption:

Corruption is a virus like cancer, which needs to be cured immediately. Lets come together to fight against this virus.

## Quit Terrorism:

It starts due to poverty and lack of education. Lets spread love through education and sustainable livelihood.

## Quit Casteism:

It was, it is and it will never let any country to move ahead. Lets open our mind and accept everyone with a big hug. This will strengthen our unity.

## Quit Communalism:

India got its independence when lakhs of Indians pledged for quitting communalism and moved together.

# New India *Manthan*....

## Clean India:

- Every household should pledge to keep their house as well as surrounding ( at least 100 meter in around their house) clean, which will also be a part of the village adoption programme.

## Poverty Free India:

- We can make our Country poverty free only when each household has a secure and sustainable source of income. Every HH should give priority to savings. The benefit of every scheme launched by Center and State should reach the target population.

## **Corruption Free India:**

A strong will to say no bribe in every situation will help India to become corruption free. A strong and quick way of judgment is the need of the hour.

## **Terrorism Free India:**

A higher level of tolerance and respecting each and every individual will definitely help to combat terrorism in India. A good and a sustainable source of livelihood with proper education will help us in fighting against terrorism.

## **Casteism and Communalism Free India:**

It is essential to root out the decadent old practice of the casteism. Facilitating several benefits on the basis of caste and community will only escalate the issue. Government has to take measures to make India free from these two evils.

Thank You!
